

# Survival ELT 500-32-2Y-G

The 500-32 series is the smallest certified Survival ELT on the market today, suitable for installation on all aircraft, flight jackets and life rafts. In an emergency, activation is simple by pressing the activate button. The beacon operates with the Cospas-Sarsat 406 MHz satellite system and features embedded GPS for enhanced location accuracy. The 121.5 MHz enables further location accuracy at closer proximity for the rescue team.

The only user maintenance being a battery replacement every 7 years and a regular Built-In-Test.

## FEATURES

- Robust, compact & light weight
- 406 MHz Cospas-Sarsat signal
- 121.5 MHz Homing signal
- EASA approved STCs for installation on all major commercial jets (see reverse)
- Battery Pack certified to the latest Lithium standards; UKTSO C142b
- User replaceable battery pack

## SPECIFICATIONS

<b>Weight</b>	1.17lbs (530g)	<b>Mounting</b>	Crash Proof mounting bracket (compatible with 500-12Y bracket mounting holes)
<b>Dimensions</b>	6.32 x 2.80 x 1.89" 160.5 x 71.0 x 48.0 mm	<b>Waterproof</b>	33 ft (10 m)
<b>Colour</b>	High Vis Yellow	<b>Antenna</b>	Telescopic dual frequency
<b>TX Frequencies</b>	406 MHz (Cospas-Sarsat) 121.5 MHz (Homing) Offset training frequencies available	<b>LEDs</b>	Beacon Active BIT Pass/Fail GPS acquired
<b>Power</b>	VHF >50mW (+17dBm) minimum UHF 5W (+37 ±2dBm) minimum	<b>Battery Pack</b>	7 year life (or after activation) Cell chemistry Li/FeS <sub>2</sub>
<b>GPS Rx</b>	22 Channels	<b>Compliance</b>	COSPAS-SARSAT T.001/T.007 RTCA DO-227A & DO-160G EUROCAE ED62B
<b>Operation</b>	24 hrs 406 & 121.5 MHz Additional 24 hrs 121.5 MHz -20 to +55°C (operational at -40°C) -4 to +131°F (operational at -40°F)	<b>Certifications</b>	UKTSO 126b (126c pending) UKTSO 142b
<b>Activation</b>	ON/OFF Button GPS Test Button	<b>Patent</b>	GB2584604
		<b>Alternative PN</b>	500-32-2Y-GF: ELT(S) with retrieval Float 500-32-2Y-GA: ELT(S) without RFID label
