

**Connecting  
A Better World.**

At Topcast, we pride ourselves as one-stop-shop for spare parts, components, raw materials and consumables sourcing service provider with our extensive network of business partners, global sourcing team and decades of experience servicing a vast and diverse customer base. We are a global connector, ultimately, we connect the world.

## Simple yet clever design fits a variety of applications

MarathonNorco is the industry and technology leader for Hold Open Rods. Telescoping and fixed-length struts are produced in a wide variety of sizes, shapes, lengths and special features, making them well suited for many industrial, commercial, marine and aviation applications. The struts are proof loads as heavy as 11,000 pounds and for ambient temperature conditions approaching 1,000 degrees F. Every strut features a patented locking mechanism and design flexibility with multiple end-fitting compatibility, rod end bearings, universal joints, clevis pins and more.

We specialized in creating low risk designs.

At MarathonNorco we are equipped with an extensive in-house test lab to validate designs early in the development process. Our current test capabilities consist of the following equipment:

- 2 Vibration Test Stands
- 3 Environmental Chambers
- 2 Endurance Cycle Test Stands
- 1 Fatigue Test Stand
- 2 Load Test Stands
