

**Connecting
A Better World.**

At Topcast, we pride ourselves as one-stop-shop for spare parts, components, raw materials and consumables sourcing service provider with our extensive network of business partners, global sourcing team and decades of experience servicing a vast and diverse customer base. We are a global connector, ultimately, we connect the world.

SAVE 50% or More with Topcast Program!

For more than 25 years, most world-leading manufacturers of aircraft seating and world's airlines trust to Mesag-System AG where quality and service is the product.

Based on passion and teamwork Mesag stands for sustainability, responsibility and flexibility.

N2-LOK®

The original N2-LOK actuator is made in Switzerland and is used as a blockable high-tech LOK for aircraft seat.

Its components are made of aluminium alloy, steel and plastic.

N2-LOK is absolutely maintenance-free.

N2-LOK is a blockable actuator element with a built-in valve control through the hollow piston rod.

N2-LOK is operated by a control cable and a remote push button. The backrest can be adjusted into any required position.

N2-LOK Actuator for aircraftseat cross references
