

**Connecting
A Better World.**

At Topcast, we pride ourselves as one-stop-shop for spare parts, components, raw materials and consumables sourcing service provider with our extensive network of business partners, global sourcing team and decades of experience servicing a vast and diverse customer base. We are a global connector, ultimately, we connect the world.

Topcast's Ballast Exchange Program **SAVE More than 30%!!**

AvtechTye Electronic Ballast

This device is specifically designed for use with fluorescent, mercury vapor, or LED lamps and starters. It provides a high starting voltage to initiate the arc and stabilizes the circuit's operating impedance to maintain a steady operating current. Frequent disassembly and repair can decrease its Mean Time Between Unscheduled Removals (MTBUR).

ACP Retrofit Program

The overall reliability of the AvtechTye Audio Control Panel enhanced by providing a more ROBUST Design.

1) **Spill Protection Upgrade**

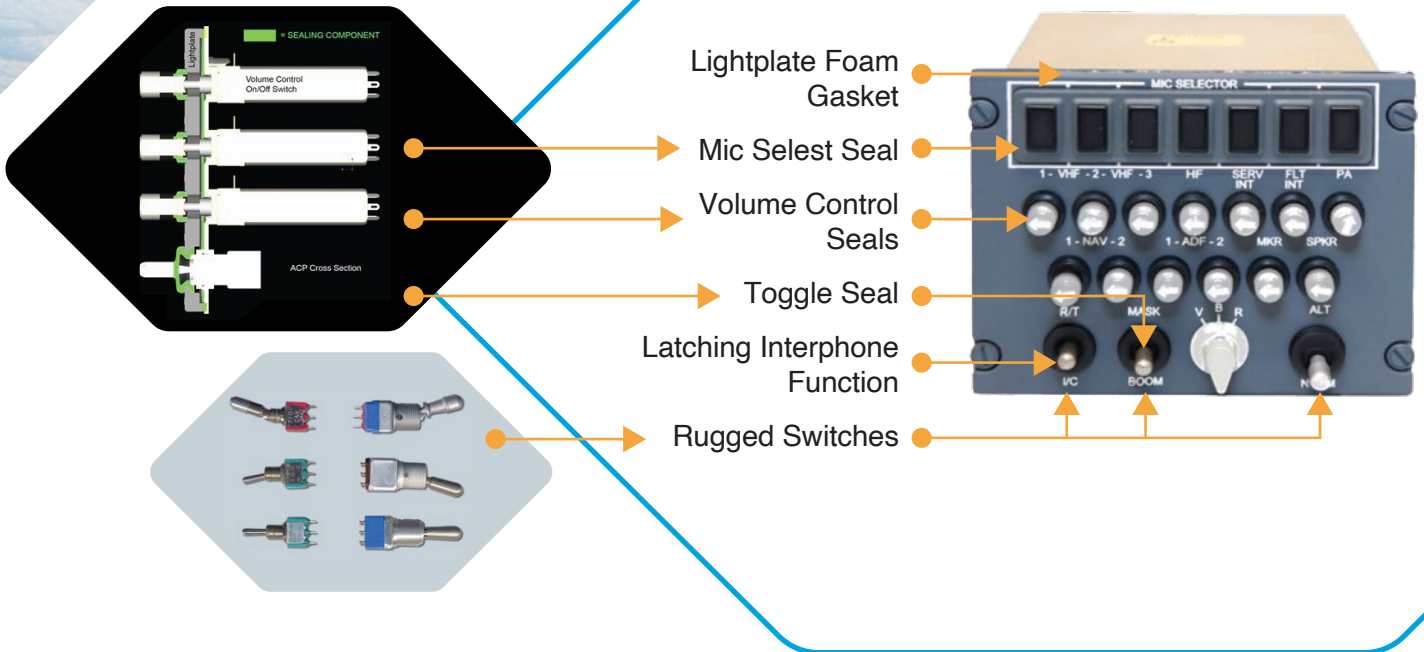

- Seals added around mic-selects, volume control knobs and toggle switches
- Sealed nuts to fasten ruggedized toggle switches
- Gasket seal added between the acrylic edgelit and aluminum frame

2) **Toggle Switch Strength Improved**

- Shaft size increased 2 times providing dramatic increase in strength with minimal change in tactile feel
- Mil-Spec toggles currently in many locations on 737 flight deck

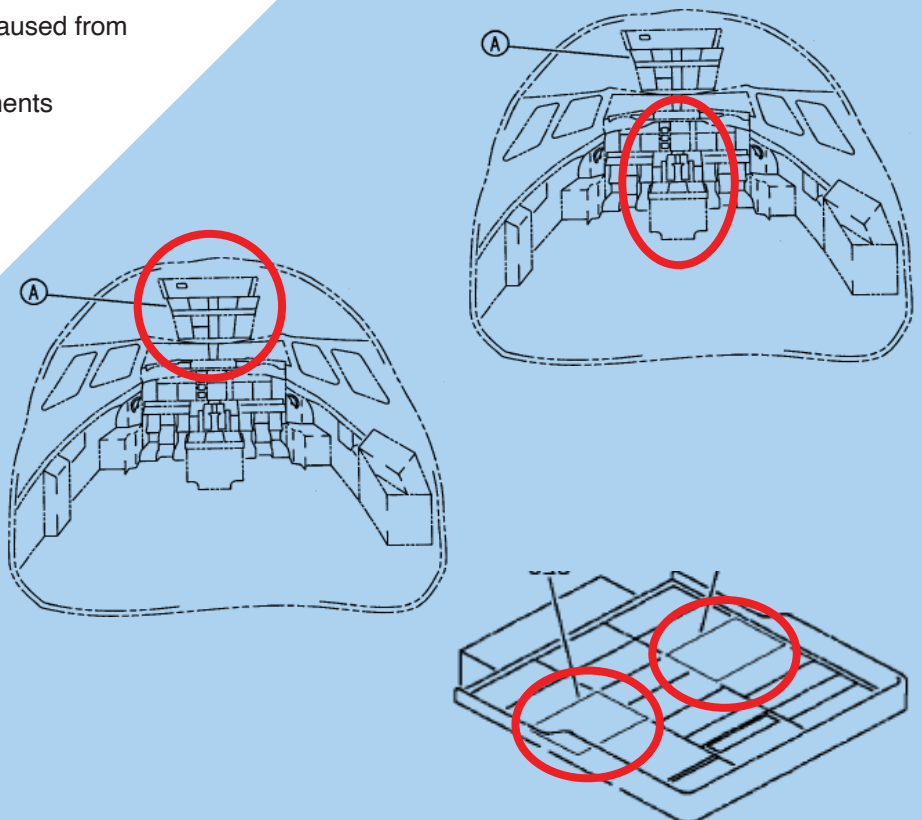

PN5145-1-77 to PN5145-1-86
PN5145-1-64 to PN5145-1-88
PN5145-1-42 to PN5145-1-83

ACP Retrofit Program allows you to SAVE more, ensure you with HIGH reliability and **GUARANTEE** spillproof!

Competitive advantages

- Lengthen the life span of the ACP
- Reduce removal rates and repair costs caused from human induced damages
- Lowering the chances of PCBA replacements caused by Burnt PCB from liquid spills
